DECLARE CONSTANT

Constant key words are used for declare a constant
syntax: const int height =100

```
eg: #include<stdio.h>
    #include<conio.h>
    void main( )
    {
    const a=10
    printf(“%d”,a);
    a=20;
    getch( );
    }
```
